OUR ENERGY POLICY

We commit to:

- Provide an inclusive framework for determination, establishment, and review of *energy purposes and energy goals* in line with the objective of the enterprise, provide and make available the information, sources, and support required for achievement of goals, and update these purposes and goals in line with continuous improvement,
- Review, record and document, continuously improve, update our *ISO 50001 Energy Management System and energy performance* in line with the purpose and scale of our enterprise, and announce these to all employees,
 - Follow and fulfill the requirements of all applicable laws, regulations, and other conditions regarding requirements and expectations of relevant parties with respect to *energy efficiency, energy utilization, and energy consumption*,
 - Reduce our *energy consumption*, make continuous improvements for increasing our *energy efficiency*, implement these, and follow results,
- Prioritize energy efficiency in procurement of products and services, used in all activities and processes of our company, and in all design operations based on *improvement of our energy performance*,
- Raise awareness of all of our employees in terms of *energy sensitivity*, communicate this matter to our suppliers, customers, and other stakeholders, and contribute to raising their awareness about the matter.

Ceyhun ZİNCİRKIRAN

Chairman of the Board of Directors
